

# MADbehaviour

10

Do you know mangabey behaviours? Here are a few of white-naped mangabeys, can you guess them by their names?

1. Sex face
2. Lip-smack
3. Allogrooming
4. Yawning
5. Genital display

Females turn around while raising the tail to show her genitals to the male

Inspecting a part of another individual's body by separating sections of fur

head tilted backwards, eyes closed, and mouth widely opened to show both upper and bottom teeth

Opening and closing lips quickly while flipping its tongue up and down

Females, while watching a male, put her lips together and stretches them, like she was going to kiss someone
